Teal Pumpkin Door Banner

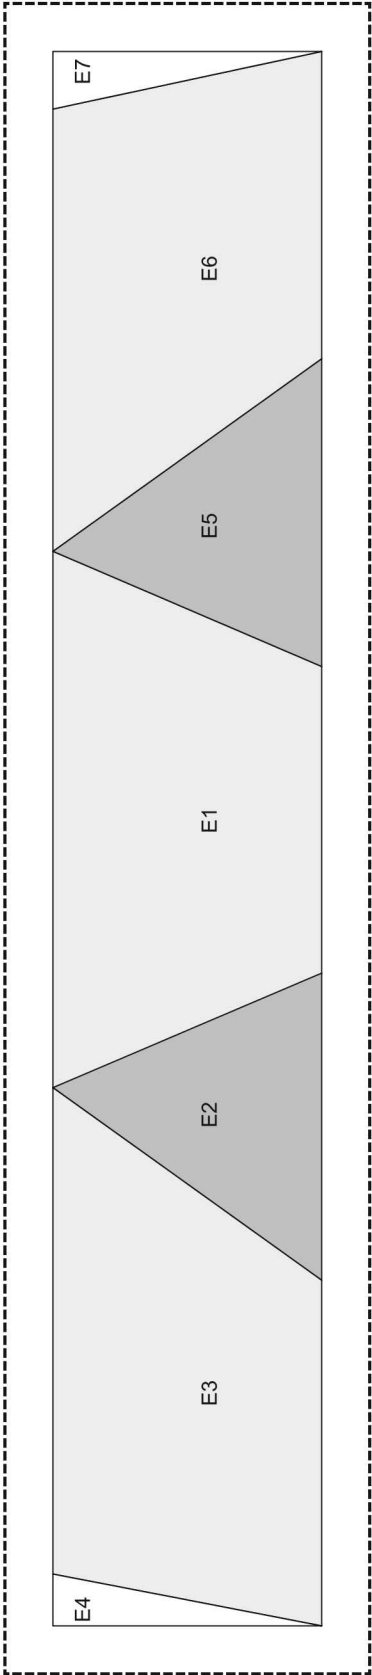

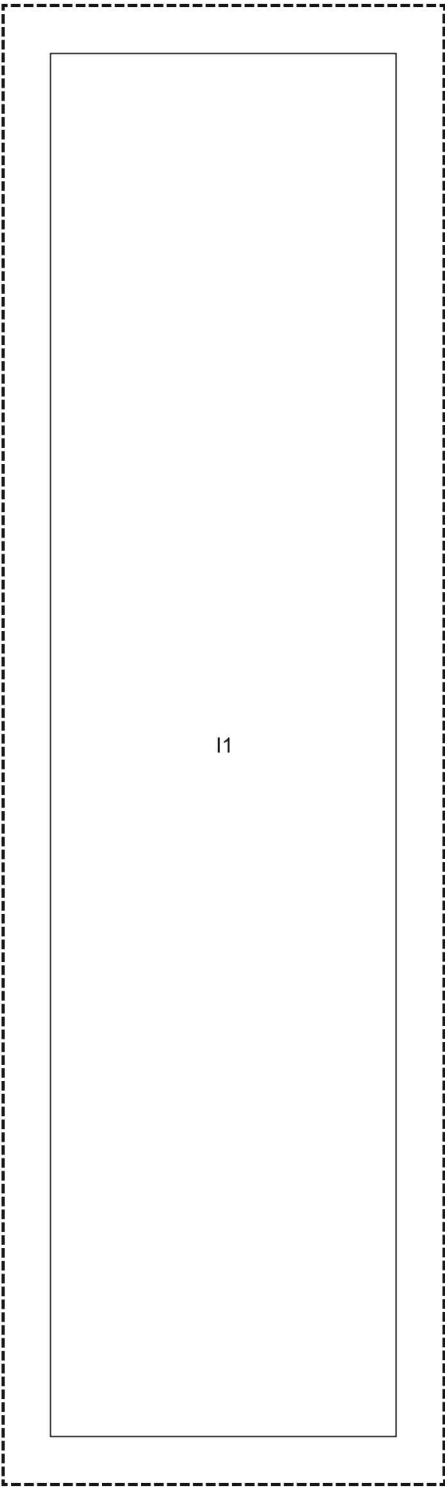

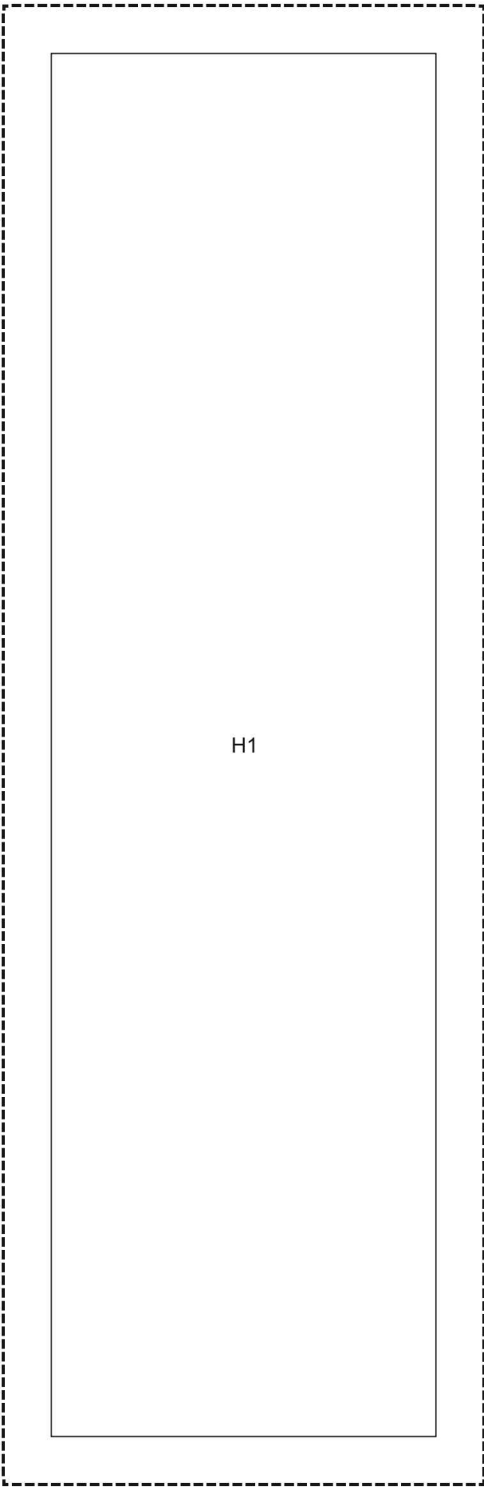

Before beginning, be sure to measure the 1" mark on pattern pages to ensure pattern was printed at full size. Sew each block or section individually. Press and trim each section prior to sewing sections together. See the quilt map for assembly assistance and the colored quilt for help distinguishing the shades of grey. Please read through all of the instructions, and the accompanying tutorial on WeAllSew.com before beginning.

Finishing the Banner Tips

Leave all paper pieces attached in the blocks until banner top is completed. If you have removed the paper already, glue basting can help prevent stretching of individual pieces that have been sewn on the bias to otherwise prevent the distortion of the fabrics.

Quilt Assembly

1. Sew the block together and the top and bottom banner pieces using the Map on the next page as a guide.
2. Carefully remove paper pieces from the block. Use tweezers to get tiny pieces out of seam allowances.
3. Press quilt top from both sides, first from the back to press seams checking for any missed seam trimmings.
4. Layer quilt top, batting and quilt backing, and quilt as desired.
5. Trim excess batting and backing from lower corners. Square up and trim quilt edges.
6. Cut binding to 2 ½" wide. Sew strips together on the bias to have approx. 80" of binding (12" extra to have room to connect the ends).
7. Fold binding as single or double fold and sew binding to quilt as preferred.
8. Add a couple of ribbon loops on the back side to place a rod through for easy hanging with colorful string.
